1100, 3003, 3105 & 5754**

Aluminum Stucco Embossed Sheet in Alloy 1100 & 3003

**Metal Perforated Sheets in Aluminium, Galvanized Iron
(GI) & Stainless Steel**

www.dinco.ae

Ever since our establishment in 1997, we have evolved into one of the largest stockiest and importers of Aluminium Sheet products and have made an impressive mark in the UAE market as a reliable supplier to over 2000 clients from various industries. For most of our customers, we have become their first choice and are the One stop solution for all their Aluminium sheets requirements.

Our centrally located and well-stocked warehouses in DUBAI & SHARJAH service our customers effectively and speedily across the UAE. We pride ourselves in offering our customers a responsive and competitive service for supplying everything from a single item order to large quantities for major projects. There is no doubt that our local experience and distribution infrastructure, coupled with our reputation for only representing reputable Mills and stocking only quality products is a powerful combination and the foundation of our success.

Our Supply Partners

We source our inventories of Aluminium alloy products from reputable mills around the world to ensure that our inventory is consistent and meets international standards of tolerances, chemical composition and mechanical properties. Our principal manufactures from Europe, India and China are amongst the largest manufacturers of rolled Aluminium products in the world. Perforated sheets in Aluminium, Galvanized Iron (GI) and Stainless Steel are sourced from mills in Taiwan which manufacture sheets with unparallel flatness and uniformity.

Product Certifications & Technical resources

All our products are provided with a Mills Test Certificate (MTC) according to different specifications like: ASTM B-209, EN-10204 3.1 or 3.2, EN 485-2, EN 485-3, EN-515, EN 573-3, EN-1386, GB/T-3380 & GB/T-3190.

Most of the products, like plain sheets in Alloy series 6000, 5000 & 3000 have ink stencil marks on the surface of the sheets indicating Alloy, Temper, Size, Thickness, Heat/Coil number, Manufacturers name etc., which ensures that the customer always gets the genuine certified materials. Please call or email us to find out which of the sheets have such markings.

Scan the QR code to visit our website to view and download the technical datasheets for the alloys we carry in stock as well as other technical resources.

PLAIN ALUMINUM SHEET AND PLATE

Available with us are Aluminium Plain Sheets / Plates in various alloys offering a range of different mechanical and chemical compositions to suit customers' different needs. With a large range of products and huge ready inventories we aim for all around service from the inquiry to the delivery and beyond, we are your reliable supplier for Aluminium Sheets.

AVAILABLE ALLOYS & TEMPERS:

1100-H14, 3003-H14, 5005-H14, 5052-H32, 5083-H111 & 5083-H116, 6082 -T651 & 7075-T651

AVAILABLE THICKNESS RANGE

0.3 ~ 50.0mm for sheet & plate

STANDARD WIDTH AND LENGTH

1000x2000mm, 1219x2438mm, 1250x2500mm, 1500x3000mm, 1600x4000mm, 2000x4000mm

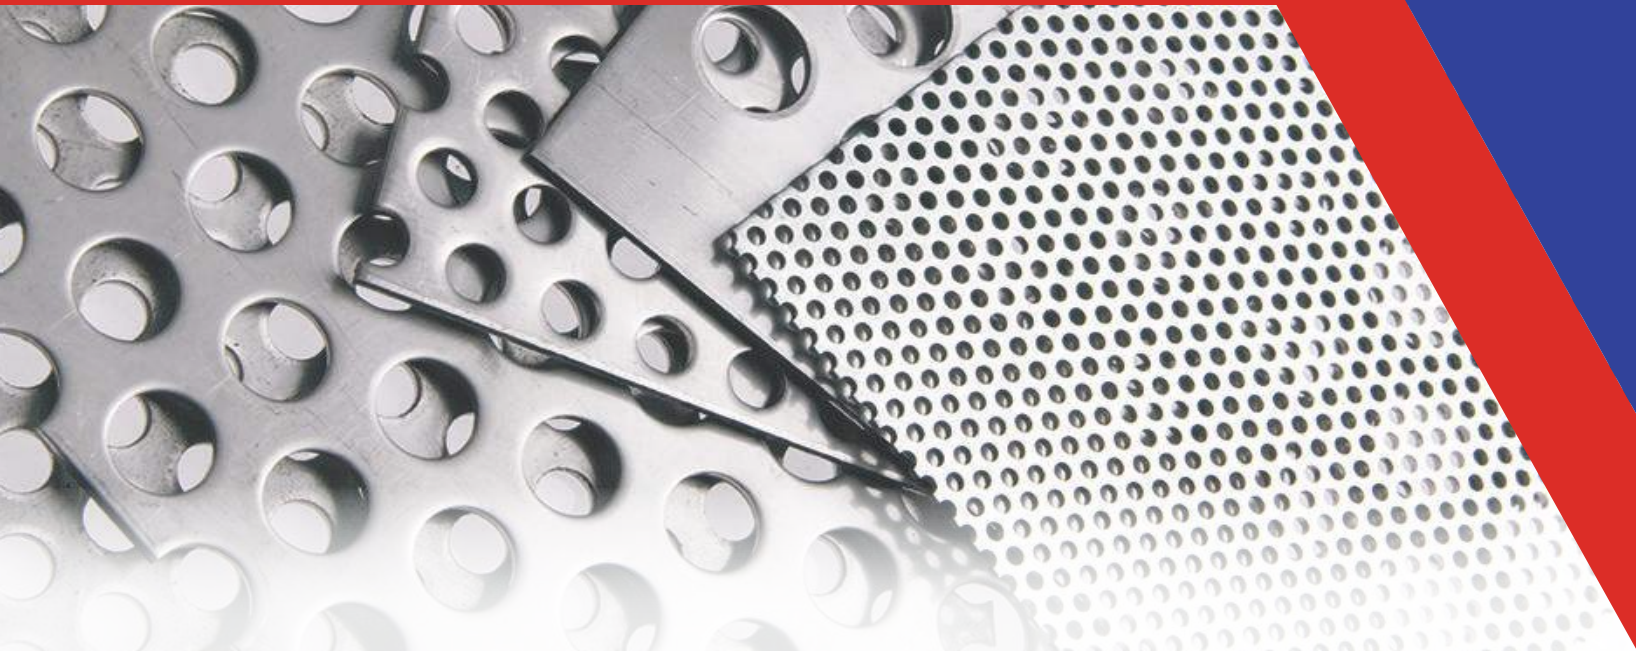

NON STANDARD SIZES CAN BE ORDERED AS WELL WITH LEAD TIMES

SURFACE PROTECTION & MARKING

Paper Interleaved or PVC protection on 1 side. One side of our plain sheets is with a thin film of easily peelable polythene to protect it. The purpose of such protection is to avoid any scratching on the surface of the sheets during handling or transportation. However, the non-coated side of the sheet may have some light scratching caused by general warehousing and transport. Some of our sheets are available with a laser PVC foil applied for superior protection, please call us to find out more.

Ink stencil marks are present on the sheets for some alloys to increase transparency and provide quality assurance to our customers especially for marine-grade alloys

PERFORATED METAL SHEETS

AVAILABLE METALS

ALUMINIUM, GALVANIZED
IRON (GI) AND GR-304
STAINLESS STEEL

AVAILABLE PATTERN

ROUND HOLE, 60 DEGREES STAGGERED
PATTERN, TRIANGULAR PITCH

AVAILABLE SIZE RANGE

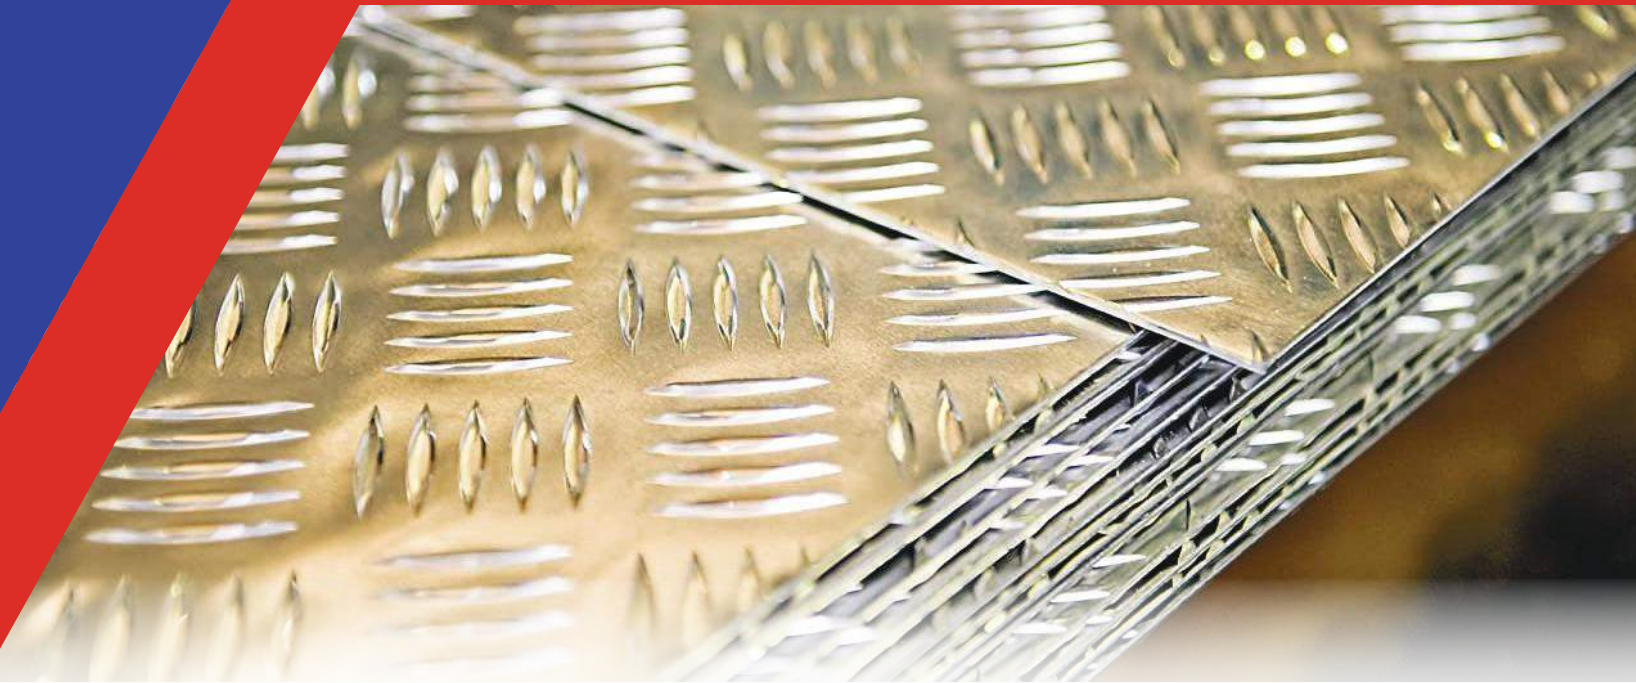

<u>Dimension</u>	<u>Range</u>
Thickness:	0.7mm ~ 4.0mm
Hole Dia:	1mm - 20mm
Pitch:	2mm - 30mm

STANDARD WIDTH AND LENGTH

1000x 2000mm 1219 x 2438mm 1500x3000mm,

ALUMINUM CHEQUERED SHEET / TREAD PLATE

AVAILABLE ALLOYS & TEMPERS

1100-H14, 3003-H22, 3105-F, 5754-H114

SURFACE FINISH

Bright Finish, Mill Finish

AVAILABLE SIZE RANGE

<u>Dimension</u>	<u>Range</u>
Thickness:	1.00mm ~ 10.0mm

STANDARD WIDTH AND LENGTH

1219 x 2438mm, 1250x2500mm, 1500x3000mm,

ALUMINIUM STUCCO EMBOSSED SHEET

Aluminium stucco embossed sheets we stock are from HINDALCO-INDIA, which are the locally approved types by most of the reputable consultants in the UAE.
